**Subject:** TSCA Meeting Agenda for July 3, 2019  
**Attachments:** ATT00001.txt; 2019 TSCA Workgroup Meeting Summary\_060519.docx; iPCB Workshop Concept Document 6.18.2019a.pdf; Key Words for the EPA Research Opportunity.docx

TSCA Workgroup Members – for those of you planning to attend the TSCA Workgroup call tomorrow, attached are the meeting minutes from our prior meeting on June 5 and the most recent concept document for the iPCB workshop recently approved by the full Task Force.

Also, one of the tasks from our prior meeting was to develop a short list of key words for a research opportunity to explore EPA's Library of Scholarly articles regarding actions going on across the country on the iPCB concern. The attached list was generated by suggestions received following our prior meeting. Not knowing the details of how this search process works, we will need Michelle Mullin's assistance and guidance to refining this search for the intended purpose.

For tomorrow's agenda, I intend to focus our time on the following:

1. Brief update on the Road Paint Whitepaper
2. Updates on PCB EPA Method 1668 study of TiO<sub>2</sub>
3. Brief discussion on silicone-based PCB contamination
4. PCB's in products data base updates
5. iPCB Key words for EPA research opportunity
6. iPCB Workshop

Doug
